

Testimony in Support of S.B. 184, An Act Extending Through November 8, 2022, Several Changes Regarding Election Administration as a Result of COVID-19 and Concerning Eligibility to Vote by Absentee Ballot

Dear Chairs Flexer and Fox, Vice Chairs Haskell and Thomas, Ranking Members Sampson and Mastrofrancesco, and Members of the Government Administration and Elections Committee,

My name is Logan George, and I am a resident of New Haven. I'm writing to communicate my strong support for **S.B. 184, An Act Extending Through November 8, 2022, Several Changes Regarding Election Administration as a Result of COVID-19 and Concerning Eligibility to Vote by Absentee Ballot**.

This bill would make the pandemic an acceptable excuse for requesting an absentee ballot for the 2022 midterm election, following similar decisions for the 2020 and 2021 elections in Connecticut. The recent spike in COVID-19 cases is still fresh in our minds, serving as a reminder that the pandemic is still very much present and constantly changing. We do not know what the state of the world will be in November; for that reason, it is critical that voters are given the autonomy to vote in whatever manner will best serve the health of both them and their families in 2022.

In November of 2020, I volunteered to be a poll worker at my local elementary school. The first COVID-19 spike was still fresh on everyone's minds, and I was nervous to expose myself to all the people who would be voting at the location that day. Many voters were very hesitant as they entered the polling station, double or triple masking and using copious amounts of hand sanitizer. Potentially exposing oneself to the virus is scary, and it should not get in the way of people fulfilling their right to vote. Although today most people are more protected with the increased availability of the COVID-19 vaccine, Omicron showed us that the pandemic is unpredictable and certainly not over. Expanding this crucial ability to vote safely by mail will be paramount this November.

In conclusion, I urge you to support S.B. 184 and provide equal access to the ballot for all, regardless of their comfort level during the pandemic. Especially with COVID-19 having a disproportionately dangerous impact on Black, Brown, and low-income communities and individuals, there is no reason to force voters to cast their ballots in person during a time of such strong uncertainty. Senior citizens, immunocompromised voters, Black/Brown voters, low-income voters, and any voters afraid of contracting COVID-19 at the polls deserve to participate in the midterm election—and every election, for that matter—without feeling as if they must risk their lives to do so, and absentee voting will provide all Connecticut voters with that comfort. I implore you to favorably vote this bill out of the Government Administration and

Elections Committee so that every voter can feel safe exercising their Constitutional right to vote this election season.

Thank you for your time and consideration,

Logan George
New Haven, CT
